

STROKE INFORMATION CARD EDMONTON AREA

Why a Stroke Information Card?

The *Stroke Information Card* provides information about the key determinants of successful community re-engagement following a stroke and the types of community services available in the Edmonton Area for stroke survivors and their families. Family physicians are often the only health care providers involved throughout the recovery process and continuum of care. By providing relevant information at the time it is needed, family physicians and other healthcare professionals can help to maximize a person's satisfaction with life after stroke.

SIGNS OF SUCCESSFUL COMMUNITY RE-ENGAGEMENT

COMMUNITY INVOLVEMENT	PSYCHOSOCIAL FUNCTIONING	VOCATIONAL & AVOCATIONAL
